HONORS

On March 27, 2010, Prof. Dr. **Dieter Seebach**, Laboratory of Organic Chemistry, ETH Zürich, was awarded honorary membership of the Chemical Society of Japan in acknowledgement of his distinguished achievement in the field of chemistry and his contribution to the development of chemistry in Japan. This is a rare honor for a non-japanese scientist. The award ceremony took place during the 90th Annual Meeting of the Chemical Society of Japan at Kinki University.

41st CUSO Summer School in Chemistry From Structure to Function in Nanomaterials

August 22–26, 2010, Eurotel Victoria, Villars, Switzerland

This CUSO Summer School will focus on the relationships between structure and properties, with a special focus on functional nanomaterials. One of today's hot topics, this interdisciplinary adventure combines molecular with materials' synthesis and covers aspects from characterization, applications in biology to e.g. magnetic properties of nanomaterials. This years CUSO Summer School will be organized and chaired by *Katharina M. Fromm*, University of Fribourg.

The speakers are:

Michael Fröba, University of Hamburg, Germany: 'Synthesis, characterization and application of micro- and meso-porous organic-inorganic hybrid materials'

Makoto Fujita, University of Tokyo, Tokyo, Japan: 'Non-covalent Assemblies: Design, Synthesis and Function'

Yann Garcia, University of Louvain, Belgium: 'Magnetism: From Molecules to Materials'

Fraser Stoddart, Northwestern University, USA: 'Molecular Switches, Coordination Polymers/MOFs, Polyrotaxanes and Polycatenanes'

After-Dinner Lecture: 'Mingling Art with Science'

Andreas Taubert, University of Potsdam, Germany: 'Bioinspired Hybrid Materials', 'Ionic Liquids as Solvents, Reactants and Building Blocks for Advanced Materials'
