### Invitation

The Swiss Academy of Sciences SCNAT is the host organization of the Swiss science community. The Swiss Chemical Society is one of its member societies. The Mission of the SCNAT includes the promotion of dialog between the scientific disciplines, to build bridges between science and society and the foresight of relevant topics.

The SCNAT Annual Congress 2006 is dedicated to the basic discipline 'Chemistry', a discipline rarely in the spotlight of public attention. At the 2006 Congress we are looking forward to presenting you with some exciting developments at the interface between chemistry, biology and medicine. Internationally renowned scientists will provide you with an overview of their latest results as well as their visions regarding key issues of research in chemistry.
