NEWS

Prof. Dr. **Andrew de Mello**, currently Professor of Chemical Nanosciences at Imperial College London, UK, has been appointed as Full Professor for Biochemical Engineering at the ETH Zurich.

Dr. **M. Volkan Kisakürek** is looking back on 30 years of dedication to *Helvetica Chimica Acta*. He started his career with HCA as technical editor in February 1981. At that time HCA was still fully owned by SCS. The Verlag Helvetica Chimica Acta (VHCA) came into existence in 1994 with minority holdings by VCH Verlagsgesellschaft in Weinheim and Birkhäuser in Basel. After VCH was taken over by John Wiley & Sons in 1994, Kisakürek took the lead in the formation of VHCA as an independent publisher within the Wiley family. Congratulations for these impressive achievements!

HONORS

Helge Ewers, Institute for Biochemistry, ETH Zurich, received together with **Winfried Römer** (Curie Institute, Paris) the Pfizer Prize for Infectology 2011 for unraveling the mechanism of how the SV40 virus enters a host cell.

The old **ETH Chemistry building** on Universitätsstrasse, Zurich, has been designated a 'Chemical Landmark'. The Platform Chemistry of the Schweizerische Akademie der Naturwissenschaften (SCNAT) honors with this award sites where significant discoveries have been made in the past.

CONFERENCES/WORKSHOPS/SYMPOSIA

ANAKON 2011 22.–25. March 2011, ETH Zurich. ANAKON is the most important conference on analytical chemistry in Germany, Austria and Switzerland.
