

# IImac Update

Basel Exhibition Center, 26 to 28 September 2023  
Inspiring the Future of Chemistry and Life Sciences

Interested in a contribution? Please contact  
Swiss Chemical Society, info@scg.ch, +41 31 306 92 92

## The IImac industry event at the important location in Basel is the largest meeting place for the chemical and life science industry in Switzerland.

IImac has its origins in the Swiss trade fair for international laboratory, measurement technology and automation in chemistry, which has been taking place since 1959. Today, the chemical and life science brand connects the industry both physically and digitally.

With the performance promise *“Inspiring the Future of Chemistry and Life Sciences”*, the event encourages the development of new ideas and solutions and presents trends and innovations by research and industry in important locations such as Basel and Lausanne.

### SCS at IImac

The SCS, as the initial founder of the fair, is partnering with Messe Schweiz and coordinates the collaboration with society partners and the Universities of Applied Sciences. The SCS and its partner societies, Schweizerischer Verband Diplomierter Chemiker FH (SVC) and Swiss Biotech Association (SBA), are also the official organizer of the IImac Conference.

### SCS Booth and its Partners

Meet the SCS and its partners at the booth next to the IImac Conference. The SCS bar offers a unique platform for networking with coffee in the morning, lunch for the IImac Conference participants and aperitifs after the lectures. Don't miss to visit us.

### IImac 365 App

With the official IImac 365 app, you always have the community network digitally with you. Your benefits

- You will find all important information about the IImac industry events in the IImac 365 app: interactive site plan, lecture program, exhibitor directory, event highlights and much more.
- Get a quick overview of the industry event site with the interactive hall plan.
- Dates and presentations can be saved in the official IImac 365 app and thus be reminded in time via push message to attend.

## IImac Conference 2023: Chemical Sciences as Driving Forces for a Sustainable Future

Chemical sciences and its related technologies are one of the main drivers to reduce the carbon footprint in industrial production and have a tremendous impact to reach the goal of a “net zero society”. Energy saving, waste reduction or using more sustainable raw materials and catalysts are only some examples that need to be improved to run a circular economy.

### Daily Topics of the IImac Conference

- Day 1, September 26, 2023: Lab Digitalization
- Day 2, September 27, 2023: Chemical Technologies
- Day 3, September 28, 2023: New Biotech Methods

### Apply for a Contributed Talk (15 min)

We offer a limited number of slots for contributed talks and invite interested companies/universities to submit an application. Abstract submission deadline is May 31, 2023, and contributions will be selected based on the following criteria:

- matching the topic of the day
- complement to the invited lectures
- innovation and marketability

### Organizing Committee of the IImac Conference and the Society Activities

Dr. Fabrice Gallou (Novartis) Dr. Claudio Battilocchio (Syngenta), Prof. Roger Marti (HEIA Fribourg), Dr. Torsten Luksch (Syngenta), Dr. Michael Altorfer (SBA), Mr. Marc Oliver Bürgi, (SVC/Chemengineering), Mr. David Spichiger and Céline Wittwer, (SCS), Ms. Céline Futterknecht (Messe Schweiz/IImac)

### Registration for Participants

Register for free as participant with the SCS promo code: *scs-ilmac23*. Registration will open on June 1, 2023.
